

# What drives you, drives us

Bosch technologies are used worldwide in almost all vehicles.

Therefore, we have dedicated over 130 years of pioneering spirit and expertise in research and manufacturing to achieving this.

We continue to work on our unique combination of solutions for spare parts, diagnostics and workshop services:

- ▶ Solutions for efficient and effective vehicle repairs
- ▶ Innovative workshop equipment and software
- ▶ The world's most comprehensive range of new and exchange parts
- ▶ Large network of distributors for quick and reliable parts supply
- ▶ Competent technical support
- ▶ Targeted sales and marketing support

# 100% Passion for Motorcycles

## Motorcycle batteries from Bosch

The Bosch batteries cover a wide range of the common motorcycle brands across Australia and New Zealand.

## Global presence

Bosch understands individual markets and tailors its local activities to reflect their specific requirements. Bosch is committed to the continued development of battery systems with several hundred associates around the world working on new battery innovations.

## Innovative strength

Bosch has been manufacturing motorcycle ABS systems since 1995. This was followed in 2013 by the development of motorcycle stability control MSC the world's first comprehensive safety system for motorcycles. In 2020, Bosch took motorcycle safety to a new level with radar-based assistance systems such as blind spot warning.

## Expertise and know-how

Bosch has successfully been making batteries since 1922 and knows the technical requirements of motorcycles very well. Bosch offers innovative and reliable solutions within its motorcycles range.

## Safe riding

Motorcycling is all about passion, dynamics and speed. Bosch provides

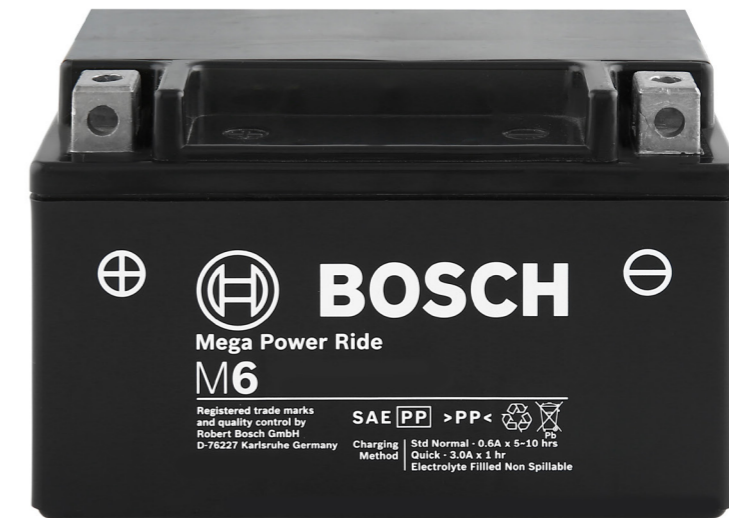

# innovative solutions

## for greater safety

– without compromising the fun of riding.

# M6 Mega Power Ride AGM Motorcycle Battery

**Dynamic motorcycle battery with AGM technology** – for on & off-road and applications requiring quick and powerful starting power to cope with today's higher cranking power demands

## Advantages at a glance

- ▶ **Dynamic and powerful starting behavior with an outstanding deep-cycle resistance:** acid absorbed by special micro-fibreglass mats (AGM: Absorbent Glass Mat) allows higher amounts of energy to be provided.
- ▶ **Easy setup:** delivered prefilled (factory activated), ready to install and use.
- ▶ **Service life increased by 20% in comparison with conventional starter batteries:** AGM technology keeps the self-discharge rates low.
- ▶ **Perfectly suitable for powersports and off-road applications:** thanks to AGM technology, these batteries are particularly vibration resistant.
- ▶ **Optimal starting performance – even if subject to short-distance trips:** AGM batteries do not lose performance because of frequent charging and discharging cycles.
- ▶ **Increased reliability in winter:** when subject to low temperatures, AGM technology features a higher resistance to deep discharge and a higher cold starting performance than conventional starter batteries.

# Bosch Battery Chargers

## Maximise your Motorcycle battery's service life

Even when batteries are not in use, they lose power. If they are left discharging for too long, the battery will be beyond recharging and must be replaced. Bosch battery chargers maintain your motorcycle batteries in a full state of charge, hence maximizing the batteries' service life. Charge your battery before it is too late.

	C3	C7
	<p><b>Convenient and efficient battery charging:</b> The C3 battery charger for 12 V passenger car starter batteries and 6 V and 12 V two-wheeler starter batteries can automatically detect the type of lead acid battery and the correct charge level</p>	<p><b>Fast, efficient and versatile battery charging:</b> The C7 battery charger for 12 V starter batteries for passenger cars and large motorcycles and 24 V starter batteries for commercial vehicles, transporters and campers can automatically detect the type of lead acid batteries as well as the charging status</p>
Types of batteries	 6 V/12 V; lead-acid, AGM, EFB	 12 V/24 V; lead-acid, AGM, EFB
Scope of application	 Scooters, motorcycles, cars, classic and vintage cars, vans, mobile homes, motorboats	 Scooters, motorcycles, cars, classic and vintage cars, vans, mobile homes, motorboats
