

Driving safety is based on clear visibility

To obtain **superior performance** from wiper blades, Bosch's recommended replacement interval is approximately 12 months, and this can shorten dramatically if vehicles see consistent use in adverse conditions.

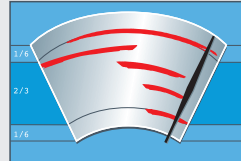

Remember: customers can significantly increase the life of their wiper blades by cleaning the blade surface as part of their normal vehicle washing routine.

What's in it for you?

	ECO	AEROTWIN
Resistant to damage by sunlight	✓	✓
Quick installation under 30 seconds	✓	✓
Noise tested against squeaking and chattering	✓	✓
Reduced wind resistance to optimise car aerodynamics and performance	✓	✓
Rust protection on all metal parts	✓	✓
New rubber design & graphic treatment for smoother operation	✓	✓
Double locking safety mechanism to keep your blade secured		✓
Bosch Evodium Vertebra distributes uniform pressure for high wiping performance		✓
Full-length spoiler for maximum downforce pressure		✓
Designed and tested for high speed driving even on German Autobahns at over 130km/h		✓
Asymmetrical spoiler for maximum downforce at highway speeds		✓
Double Bosch Evodium Vertebra for stronger structure and force distribution in demanding conditions		✓

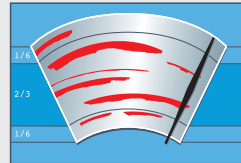

When to replace your wipers

Top 4 tell-tale signs that you should replace your wiper blades immediately for maximum safety on the road!

Stripes & Streaks

Cause: Pollution, dirt and insects tearing the wiper rubber.

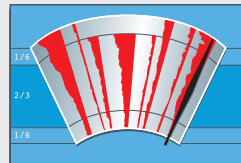

Cross Beam

Cause: Corrosion of wiper blade frame due to environmental influences and excessive play in frame through mechanical wear.

Unwiped Section

Cause: Bent tension strip or deformed wiper blade due to long term resting in the parked position in high temperatures.

Rattle & Flutter

Cause: Environmental impact such as ozone and UV rays destroys the wiper rubber's chemical structure, resulting in cracks and tears.

 **BOSCH**
Invented for life

Bosch Wiper Blades

Clear visibility for your safety

AEROTWIN

Ultimate Wiping Performance
Innovative Design for Longest Life

Ultimate wiping performance, maximum safety

- ▶ Integrated spoiler design creates maximum blade downforce

Longest life

- ▶ Bracketless construction with even distribution of the force combined with **Bosch Power Protection Plus Technology** provides an improvement in service life

Smooth quiet operation

- ▶ The fully synthetic **Bosch Power Protection Plus Technology** wipes chatter free

Easy installation

- ▶ Patented Quick-Clip connector system for easy and fast installation

AEROTWIN Plus

Strong Product with Superior Wiper Performance
Innovative Wiper Rubber Technology

Perfect wiper performance

- ▶ **Power Protection Plus** optimises wiping performance without leaving streaks
- ▶ Enhanced visibility

Gentle wiper action

- ▶ Innovative wiper rubber technology with a patented coating
- ▶ Reduced friction of the material: No rubbing noise for either wet or dry windscreens

Clever adapter system

- ▶ Innovative system combining 15 wiper lengths and 4 adapters
- ▶ Straightforward and fast coverage for new vehicle models

ECO

High Wiping Performance
Basic Design & Value for Performance

Balancing performance & economy

- ▶ Better wiping performance than refill replacement
- ▶ One-step installation for a comprehensive range of applications without further adaptors
- ▶ Full-frame metal construction

Quick installation

- ▶ Patented **Quick-Clip** connector system
- ▶ No more cutting refills to size
- ▶ Suitable for pin and hook style wiper arms

90 years of innovative wiper systems.
Pure Vision means **safety** and **lasting performance**.

Advantages of wipers over refills

	Blade	Refill
Installation	<ul style="list-style-type: none"> ▶ Quick-Clip for fast, easy installation ▶ Specified lengths - no cutting to size 	<ul style="list-style-type: none"> ▶ Longer installation time than blades ▶ Often require modification to fit
Safety	<ul style="list-style-type: none"> ▶ New frame offers optimum support to wiper edge, maximising performance and longevity 	<ul style="list-style-type: none"> ▶ Worn, overly-flexible frame results in smearing and streaking, and accelerates refill wear
Customer	<ul style="list-style-type: none"> ▶ Matched set means optimum performance and longevity ▶ Replaces old, faded frames; maximises performance and vehicle appearance 	<ul style="list-style-type: none"> ▶ Unreliable performance and fitment, as refill may not accurately match frame ▶ Poor wiping performance leaves bad impression on customers
