For over 125 years, Bosch innovations have been keeping vehicles on the road and getting people to and from their destinations while improving safety and peace of mind along the way.

Bosch Automotive Aftermarket offers workshops and retailers a comprehensive portfolio of products that is unmatched worldwide:

- Efficient diagnostics
- Innovative workshop equipment
- Quick, reliable delivery
- The world’s most comprehensive range of both new and remanufactured spare parts
- Workshop concepts to meet every requirement
- Comprehensive training
- Targeted sales and marketing support
- A competent service hotline
- 24-hour online workshop services

When it comes to scheduling, organising, and finding results, our solutions are combined with additional services to ensure your needs will be perfectly met, helping you to maximise your potential.

**What drives you, drives us.**

The DCU 220 is the latest and toughest tablet PC from Bosch. It is fully compatible with the KTS 5xx modules, the new FSA 500 or other Windows based Bosch hardware.

- Replace batteries without interruption during regular operation (hot swap function). Two identical lithium-ion batteries included
- One battery sufficient to continue operation in the workshop
- Dust and splash proof (IP 54)
- Touch screen: large 13.3” display for ease of use
- Recessed USB connection to enable protected connection of a dongle
- Tough housing: for workshop use
- Guided troubleshooting: detailed test information integrated with diagnostics
- Wireless: integrated Bluetooth, WLAN and digital camera
- Heavy duty tablet PC
- Dust and splash proof (IP 54)
- Touch screen: large 13.3” display for ease of use
- Recessed USB connection to enable protected connection of a dongle
- Tough housing: for workshop use
- Guided troubleshooting: detailed test information integrated with diagnostics
- Wireless: integrated Bluetooth, WLAN and digital camera

**KTS diagnostics range**

Control unit diagnosis and vehicle system analysis
Our knowledge, your success
Bosch diagnostics equipment

More complex systems in vehicles require increasingly more qualified diagnosis for professional repair and maintenance. Bosch offers workshop system know-how, technical information for diagnostic devices, technical training and spare parts to original specification quality.

The KTS range from Bosch is a series of ECU diagnostic tools that have been developed over the past 20 years and are powered by ESI[tronic] software, which is updated periodically.

The tools can be used for the most basic tasks—reading fault codes and resetting service lights to in-depth diagnostics including oscilloscopes and the latest pass-through compatibility. The latest tools have added functions including hybrid systems, air suspension, lighting, Start/Stop, DPF and tyre monitoring.

Instant comprehensive technical support is available via ESI[tronic] at the touch of a key or via the UK technical support help lines manned by technical experts.

The KTS 5xx range allows you to use Bosch diagnostics on the DCU130 or your own Windows-based computer or laptop. Bluetooth technology for easy connection to vehicle.

The KTS 540 diagnostic module with wireless standard class 1 Bluetooth connection with a range of 100m as well as a 2 Channel multimeter.

The KTS 570 same as the KTS 540 but additionally with built in 2 Channel oscilloscope which can be used for in depth testing of electrical components.

The KTS 890: ECU diagnostics with separate 4 channel scope
DCU 130 tablet, KTS 540 Bluetooth module and FSA 500 scope for full vehicle testing solutions
Compact, rechargeable scope module plus diagnostic module with wireless link to tablet PC.
Universal scope with 2 channel (2x40MS/s) and 4 channel mode (4x1MS/s).

KTS 940: Simply reliable ECU diagnostics
DCU 130 tablet with KTS 540 Bluetooth module.
Full diagnostic functions – Read fault codes, view live data, perform actuator tests and carry out special functionalities including transfer coding, DPF regeneration, steering angle initialisation and brake bleeding.

New! KTS 940 Range
The complete solution

KTS 940:

- Diagnoses
- Compares
- Knows your needs
- Special functions
- Maximises profit
- eliminates potential faults
- Original specification quality
- Ferreting out in-depth diagnostic problems
- Supports professional repair strategies
- Bluemine ESI[tronic] software
- 2100 software updates
- 2100 printer laserjet 3050
- 2100 paper cartridge 250 sheets
- 2100 USB cable
- 2100 software update

KTS 5xx Range
Safe, convenient and fast

The KTS 5xx tools can all be used in conjunction with our ESI[tronic] repair instructions to give a complete diagnostic solution.

We are only just getting started, where others stop
Fix it fast with KTS and ESI[tronic] software

Diagnosis
Reads fault codes, actual values and system monitors

Troubleshooting
Largest database of error codes and actual values

Repair
ESI[tronic] software provides easy access to repair instructions

Economical diagnostic solution
Use with your existing workshop computer

Strong and lightweight
Ideal for workshop or mobile use

Fully upgradable
CAL interface (automatic pin selection)

Latest technology inside
Pass through ready (J2534 complaint)

2 Channel-scope (KTS 570 only)

KTS 540
Diagnostics module with wireless standard class 1 Bluetooth connection with a range of 100m as well as a 2 Channel multimeter.

KTS 570
Same as the KTS 540 but additionally with built in 2 Channel oscilloscope which can be used for in depth testing of electrical components.

Bluetooth
Wireless connection, diagnostics without connecting cables

KTS 890:
ECU diagnostics with separate 4 channel scope
DCU 130 tablet, KTS 540 Bluetooth module and FSA 500 scope for full vehicle testing solutions
Compact, rechargeable scope module plus diagnostic module with wireless link to tablet PC.
Universal scope with 2 channel (2x40MS/s) and 4 channel mode (4x1MS/s)
