Filtros Bosch para el habitáculo

La solución perfecta

Casi el 100% de los nuevos vehículos vienen ya equipados con filtro para el habitáculo.

Es necesario tener en perfecto estado el filtro de habitáculo, de forma que se consiga un aire limpio sin bacterias y pólenes, y un aire sano sin malos olores, gases de escape y alérgenos, protegiendo especialmente a personas alérgicas o con problemas respiratorios.

Además, un filtro de habitáculo sucio o en mal estado provoca que el flujo de aire sea menor y que los cristales se empañen, especialmente en época de lluvias.

Por lo tanto, un filtro de habitáculo en perfectas condiciones proporciona un mayor confort y seguridad durante la conducción.

La periodicidad de cambio la establecen las especificaciones técnicas del vehículo o del fabricante del filtro, pero es recomendable realizar el cambio cada 15.000 kilómetros, o bien una vez al año.

Con filtros Bosch conseguirá:

- ▶ Una excelente cobertura de mercado > 95%
- ▶ Constantes ampliaciones del programa
- ▶ 3 gamas compatibles: los filtros estándar, carbón activo y Filter+ ofrecen la mejor
- ▶ Protección para personas alérgicas
- ▶ Un apoyo a la venta (mini-catálogos, posters e instrucciones de montaje)
- ▶ Marca de calidad del proveedor líder de sistemas
- ▶ Total cumplimiento de especificaciones de primer equipo
