Service and Maintenance Plans
Bosch Workshop Test Equipment

Introduction

As manufacturers of premium quality parts and workshop test equipment, Bosch can also provide aftersales care and services to ensure continued smooth operation of your workshop test equipment.

These services include; repair, maintenance, calibration and service call-outs available through the care packages detailed in this brochure.

All of these services are carried out by our own Bosch Engineers to ensure high standards are maintained across the range of Bosch workshop test equipment upon which your business relies.

Service Plans

Bosch offers a range of care packages to maintain and protect your valuable workshop test equipment. Whether you have Air Conditioning, Emissions, KTS Diagnostic, or the very latest in ADAS Calibration equipment, there is a care package available, ensuring that your investment is comprehensively maintained by Bosch Engineers and continues to perform at optimum levels. On Air Conditioning and Emissions equipment, there is an Extended Warranty option, to further enhance your level of protection and offer you complete peace of mind.

Terms and conditions apply.

Benefits at a glance:

- ▶ Professional support based on decades of workshop experience
- ▶ Minimise downtime in the event of a breakdown
- ▶ Highly skilled team of Bosch Engineers
- ▶ Optimising the reliability of your workshop test equipment

Bosch Training

Today's technology and equipment are becoming increasingly complex and challenging for the modern workshop.

With the support of Bosch certified training courses, workshop technicians will be trained to perform diagnostic tasks, maintenance and repair work more effectively and efficiently.

Further education and training are essential to ensure your business keeps pace with the latest developments in automotive technology.

For more information about Bosch training courses and programmes, speak with your Bosch Engineer, your local Bosch representative, or visit our website:

www.bosch-training-solutions.com/gb/

What drives you, drives us

Bosch technologies are used worldwide in almost all vehicles. People, and assuring their mobility, is what we are focused on.

Therefore, we have dedicated the last 125 years of pioneering spirit and expertise in research and manufacturing to achieving this.

We continue to work on our unique combination of solutions for spare parts, diagnostic devices, workshop equipment and services:

- ▶ Solutions for efficient vehicle repairs
- ▶ Innovative workshop equipment and software
- ▶ The world's most comprehensive range of new and replacement parts
- ▶ Large network of wholesale customers, for quick and reliable parts supply
- ▶ Competent hotline support
- ▶ Comprehensive educational and training offers
- ▶ Targeted sales and marketing support
