Bosch QualityScan

Transparent documentation of ultimate diesel repair quality

Quality is our foremost objective. This is why common-rail injectors and injection pumps repaired by your authorised Bosch diesel specialist are marked by a special proof of quality. Common-rail injectors (CRI) and common-rail pumps (CP) are fitted with special adhesive repair ID labels or with repair ID clips in the case of common-rail injectors for commercial vehicles (CRIN).

Bosch repair quality implies:

- ▶ Certified testing equipment
- ▶ Specific maintenance and testing methods
- ▶ Original testing data and genuine parts from Bosch

See for yourself

Scan the repair ID on the diesel component using the QualityScan app or visit the QualityScan websites

QualityScan allows you to have the repair quality of injectors and injection pumps confirmed by Bosch quickly and easily. Only components that have passed the strict quality tests in accordance with Bosch specifications are listed in the online database. To enjoy the benefits, download the QualityScan App free of charge from the Apple App store or Google Play Store.

Alternatively, you can gain access to component data by entering the repair ID in the QualityScan website.
