## Maximum performance with innovative rubber technology

Bosch has developed an internal treatment of rubber, Power ProtectionPlus, with many advantages in relation to the other wiper blades on the market, which only have a superficial treatment of rubber.

Power Protection Plus optimizes the efficiency of the wiper blades:

### Gentle Wiper Action

Power Protection Plus reduces the friction between the rubber edge and the windshield, reducing chattering and running noise.

### Better Visibility

Power Protection Plus removes streaks and deposits on the windshield for optimum wiping performance.

### Longer Lasting

More robust and resistant rubber, together with the uniform force of the *Evodium* flexible spring strip, further increase its durability.
