## Bosch Diesel Service Your Professional Service Partner

**Diesel Service**

## Expertise and quality you can trust

Dedicated diesel specialists

Bosch Diesel Service workshops are specialised in servicing and maintaining complex diesel injection systems at their optimum performance levels.

Highly trained diesel technicians are able to offer the best-fitting solution for your diesel injection component problems.

So the next time you need specialist diesel support, you know where to come!

## Customised repair solutions

We make the difference

At the heart of our service offering are our experienced, Bosch-trained technicians using top-quality testing and diagnostic equipment, tools, and spare parts from Bosch.

Once our technicians have found the faulty part, they then have the facilities and knowledge to repair or to offer a replacement. Bosch Diesel Service workshops aim to provide you with the most cost-effective solution, by assessing the cost difference between repair and replacement.

- ▶ Advanced component testing reduces the costs of repair by correctly identifying the fault in the component
- ▶ Our technicians receive regular training to keep them up-to-date with all the latest technologies

### Expertise and quality you can rely on

- ▶ **The leader in component repair**
- ▶ **Qualified diesel technicians**
- ▶ **Long-standing diesel know-how**
- ▶ **High quality diagnosis and test equipment**
- ▶ **Time-efficient repair solutions**
- ▶ **Stock of reconditioned exchange pumps**
- ▶ **Steady prices and definite appointments**
- ▶ **Bosch authorisation for warranty handling (excluding CRS pumps)**
