

Corner reflector target and carrier for calibration of radar sensors

Rapid setup procedure supported by
laser technology

- ▶ Active alignment of radar sensors
- ▶ Rear radar calibration capability
- ▶ For Kia, Hyundai, Mazda, Toyota / Lexus
and Honda

UPGRADE

Benefits of SCT 815

- ▶ Corner reflector target for Radar calibration
- ▶ Special design with fiberglass material
(no disturbing radar reflections)
- ▶ Fast and accurate setup supported by laser technology
- ▶ Carrier designed to connect future targets and
alignment technologies

SCT 815: fast and accurate alignment ensures successful calibration

SCT 815 S5*: Scope of delivery

- ▶ Fixture with corner reflector
- ▶ Setup instructions for make/model/year
- ▶ Laser distance and height measurement device

* Possibility to reuse green line laser of SCT 415 or SCT 1415

📄 **Order number: 0 684 300 113**

SCT 815 S6: Scope of delivery

- ▶ Fixture with corner reflector
- ▶ Setup instructions for make/model/year
- ▶ Laser distance and height measurement device
- ▶ Green line laser to line-up with vehicle center line

📄 **Order number: 0 684 300 114**

ESI[tronic] 2.0 online: Diagnostic software for controlling vehicle specific calibration and adjustment procedures.

The vehicle manufacturer decides which learning method for the sensors is used. Bosch supports workshops with the right tools, test equipment and the necessary diagnostic software to perform the adjustment procedures step by step.

Product	Symbol	Laser class	Labeling	Warning
SCT 815 S5/S6		Laser 2		
SCT 815 S6		Laser 1M		Laser Radiation! Do not view directly with optical instruments
