B3.8 Y28.1 W1.70

BENEFITS OF EXPERIENCE-BASED REPAIR (EBR) AT A GLANCE

- ▶ Repair instructions generated by the experienced Bosch authoring team and validated thanks to the expertise of the worldwide Bosch diagnostic community
- ▶ 500.000 real-life use cases/vehicle combinations already available – and the database is growing day by day!
- ▶ Optimal time savings: The free text search allows you to search for error codes, symptoms, and even components, as well as faults without error codes stored
- ▶ Common structure of the repair instructions facilitates the repair process
- ▶ EBR always provides you with the latest content due to the required internet connection

UNIQUE ON THE MARKET

EBR-Finder

Bosch developed an innovative algorithm, which enables the so-called EBR-Finder to identify trending vehicle problems from a multitude of sources. With this as the starting point, the experienced Bosch SIS authors can create a repair solution.

WELL THOUGHT-OUT DOWN TO THE LAST DETAIL

Feedback function

The feedback function at the bottom of each repair instruction allows you and other ESI[tronic] diagnostic experts to categorize and view the ratings of the selected fix. This shows how popular the solution is and makes searching even easier – the required solutions are frequently listed at the top.

How useful was this information?

Yes

Yes, I had this fault and the solution was helpful for me.

No

I had this fault, but the solution was not helpful.

I had another fault or other symptoms.

Create an ESI[tronic] ticket to report a fault.
