? Did you know?

Consisting of flat wiper blades, design plastic and metal frame wipers, the Bosch rear wiper blade range offers the right solution for almost every vehicle and thus achieves a

high level of market coverage

Rear wiper blades

Technology

In bad weather, clear visibility to the rear is also essential. Bosch rear wipers – with the Aerotwin flat wiper blade, the high-quality design plastic wiper or the proven metal frame wiper – ensure very good visibility and a high level of safety.

Aerotwin flat wiper blade

The Bosch Aerotwin is a good choice for the rear window too. It offers outstanding wiping performance, wipes very quietly and is extremely durable. No wonder: like the proven Aerotwin for the windshield, it features the patented Power Protection Plus wiper blade technology.

Design plastic wiper blade

Design rear wipers are special developments that are almost identical in form and function to the original equipment of the vehicle manufacturer. They have been developed specifically for each vehicle, making them easy, quick and reliable to fit and ensuring very good wiping performance.

Metal frame wiper blade

These wipers use proven conventional technologies and provide reliable wiping performance in everyday use. They are available both as standard solutions with pre-mounted adapters and as vehicle-specific full metal solutions.

What drives you, drives us

Bosch technologies are used worldwide in almost all vehicles. People, and assuring their mobility, is what we are focused on.

Therefore, we have dedicated over 130 years of pioneering spirit and expertise in research and manufacturing to achieving this.

We continue to work on our unique combination of solutions for spare parts, diagnostics and workshop services:

- ▶ Solutions for efficient and effective vehicle repairs
- ▶ Innovative workshop equipment and software
- ▶ The world's most comprehensive range of new and exchange parts
- ▶ Large network of wholesale customers, for quick and reliable parts supply
- ▶ Competent technical support
- ▶ Comprehensive educational and training offers
- ▶ Targeted sales and marketing support
