RELIEF

Easy breathing for allergy sufferers

Bosch cabin filters

Protection for young and old allergy sufferers

Bosch cabin filters

Watery and itchy eyes along with sneezing are rather unpleasant aspects of spring for a lot of people suffering from pollen allergies. These allergic reactions are particularly annoying when driving a car. Fine dust, microorganisms and exhaust gases of preceding cars, however, can be equally burdening – especially for kids. In these cases, Bosch cabin filters can provide relief. Allergens, viruses, bacteria and fine dust are efficiently trapped before reaching the inside of the car.

Bosch – a strong partner for cabin filter businesses

- ▶ Complete range consisting of more than 600 filters from a single source
- ▶ Market coverage of 95 %
- ▶ Updated product range with appr. 40 new releases each year
- ▶ High availability of goods – in more than 100 countries worldwide

Bosch cabin filters protect the most valuable parts of the vehicle: driver and occupants. In return, no compromises can be made concerning their product quality. Every Bosch cabin filter features high-quality materials, top processing and technical know-how.

Increasing health consciousness and a risen awareness for topics such as fine dust and allergies among the drivers highlight cabin filters ever more – use your chance and benefit from this additional business!

Did you know?

Allergies are on the rise. In Germany, appr.

20 Mio.*

people suffer from pollen allergies.

Workshop tip

Bosch recommends to change cabin filters every 15,000 km or once a year.

Possible consequences of silted-up filters:

- ▶ Poor vision due to misted windows, and thus reduced safety
- ▶ Increased concentration of pollutants inside the vehicle
- ▶ Allergic reactions, e.g. sneezing
- ▶ Restricted operation of the air conditioning system due to deposits on the evaporator

FILTER⁺pro cabin filters

Product details

Bosch FILTER⁺pro – works effectively against viruses, bacteria, mold, fine dust and neutralizes allergens as well as harmful gases. For the best possible air quality in the vehicle interior and high health protection for the occupants.

Advantages at a glance

- ▶ **Works effectively against viruses and bacteria and prevents mold growth** due to special anti-microbial layer
- ▶ **Permanently binds allergens and pollen** in the filter fleece
- ▶ **Filters highly efficient more than 98% of all fine dust particles (particle size up to 2,5µm)** in an ultrafine microfiber layer
- ▶ **Neutralizes reliably harmful and foul-smelling gases** in an activated carbon layer
- ▶ **Protects the air conditioner and improves the vision** by reducing deposits
- ▶ **Included installation manual** for selected vehicle models

Attractive packaging

- ▶ FILTER⁺pro function and benefits neatly explained for end consumers
- ▶ Incl. short code, part number, applications and EAN code
- ▶ Installation instructions included
- ▶ High stability for a reliable protection of cabin filters during transport and warehousing

- ▶ **Neutralizes reliably harmful and foul-smelling gases** in an activated carbon layer
- ▶ **Filters effectively fine dust, soot and pollen** in an ultrafine microfiber layer
- ▶ **Protects the air conditioner and improves the vision** by reducing deposits
- ▶ **Included installation manual** for selected vehicle models

Did you know?

One gram of activated carbon has an internal surface of approx.

1,000 m²

A teaspoon of activated carbon thus has the same surface as a whole soccer pitch.

Activated carbon cabin filters

Technology

Best Brand 2021

16 times in a row, the readers of the German automobile magazine "auto, motor und sport" voted Bosch the best brand in the Filters category.

„auto motor und sport“,
edition 07/2021

Did you know?

Activated carbon is made of coconut shells carbonized and crushed in a hermetically sealed environment. Water vapor with a temperature of

800° C

is used to create its sponge-like structure.

Standard cabin filters

Product details

Bosch standard cabin filters – for clean air inside the car.

Advantages at a glance

- ▶ **Filters effectively fine dust, soot and pollen** in an ultrafine microfiber layer
- ▶ **Protects the air conditioner and improves the vision** by reducing deposits
- ▶ **Included installation manual** for selected vehicle models

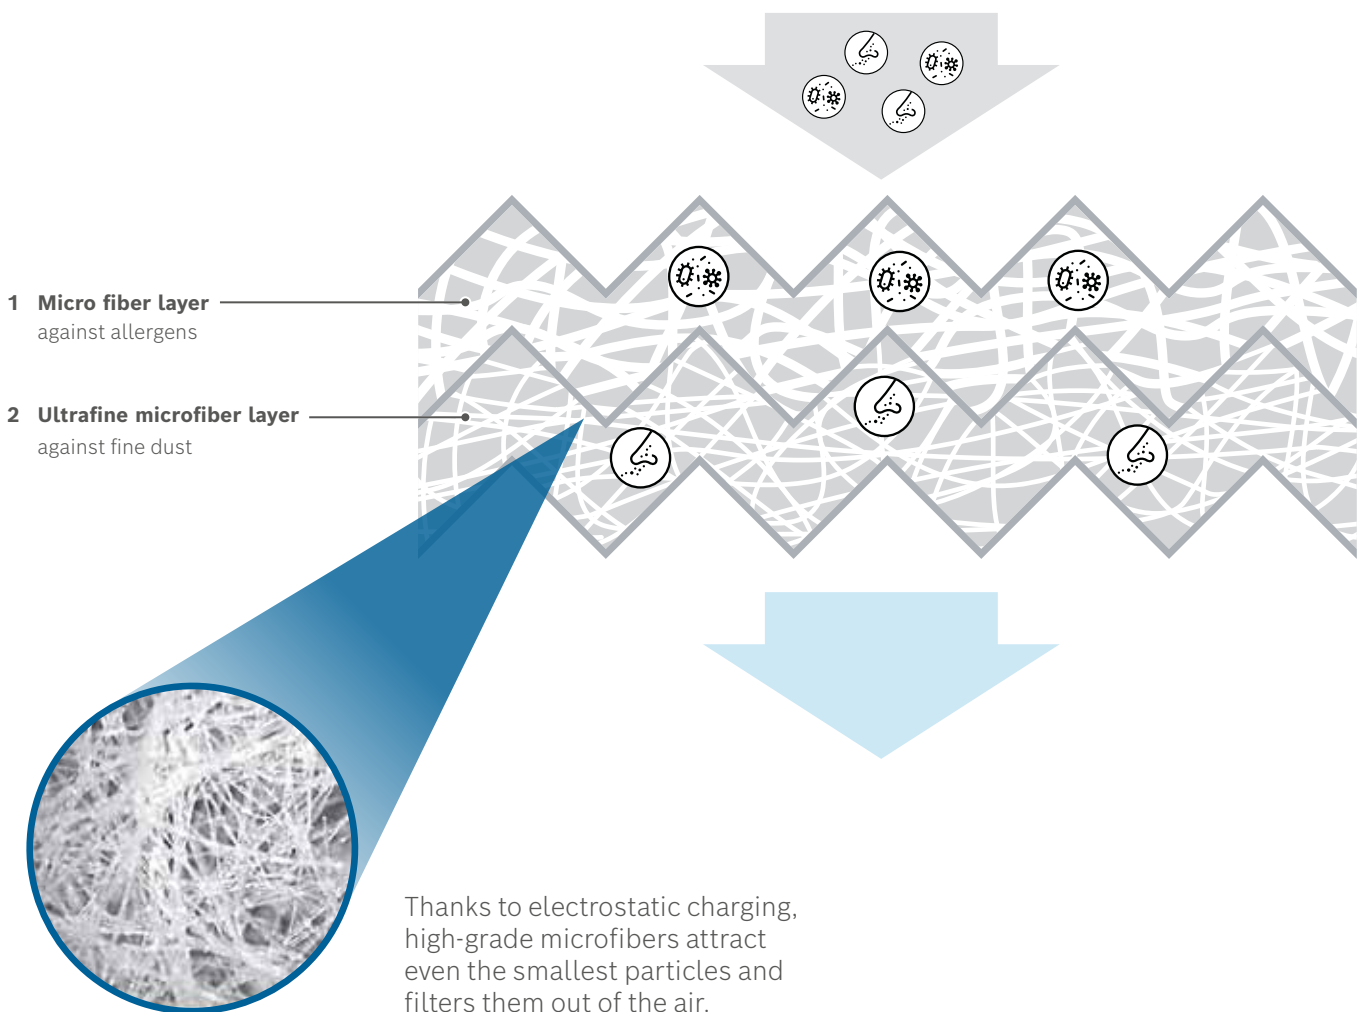

Did you know?

A special embossing of the filter media increases the stability and the surface of the filter.

Standard cabin filters
