

Bosch Aerotwin J·E·T Blade with Jet Evolution Technology

Clearer view, improved safety

The Bosch Aerotwin J·E·T Blade with the new Jet Evolution Technology (J·E·T) ensures more targeted cleaning of the windshield and therefore a clearer view and improved safety.⁽¹⁾

- **Thanks to the Jet Evolution Technology the J·E·T Blade provides greater efficiency in wiping leading to a safer drive:** spray nozzles, which are integrated in the wiper, direct the washer fluid exactly in front of the wiper blade without disruptive spray mist
- **Power Protection Plus wiper rubber and patented coating:** for an increased service life, outstanding wiping performance and quiet wiping under extreme weather conditions
- **Long-Life wiper rubber formula with innovative additive to the wiper rubber and Evodium spring strips:** for an increased service life
- **Pre-assembled vehicle-specific adapter:** enables quick and easy installation when replacing original equipment wiper blades

(1) compared with wiper blades without integrated spray function

Volvo V60 II	01/2018 ->	SDB, NHE	A 007 J	3397110007	LLE	600 / 500	3	2
Volvo XC60 II	01/2017 ->	SDB, NHE	A 006 J	3397110006	LLE	650 / 475	3	2

SDB = Nozzle at wiper blade; NHE = Wiper System without heating

Replacement is only possible for vehicles that are already equipped with a wiper with spray function.

100% plastic-free packaging:

- All components of the wiper packaging can be recycled with waste paper
- The packaging paper tray is made from renewable fiber materials
